me: you there?
me: I've tried really hard to live a healthy life
me: and I can't
me: all I want is to be back on heroin
me: I've accomplished a lot and am about to do a lot more
me: but it doesn't make me happy at all
me: I really thought that I wanted to be famous but I don't
me: I just want to take opiates for a while and write a few things and then die
me: but I don't want you to die
me: so don't ever pull a suicide attempt again or I'll abduct you
